1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michelle K. Holoubek on 6/14/06.

The application has been amended as follows:

In the specification:

Delete the entire paragraph between current paragraphs [0029] and [0030], which was added in the previous Amendment and Reply filed January 24, 2006:

"Specifically, in light of the description provided herein, it would be evident to one of skill in the art that a capacitor can be made from: a first MOS-on-PWELL device formed on a substrate and having a first pickup terminal and a first gate; a second MOS-on-PWELL device formed on the substrate and having a second pickup terminal and a second gate, wherein the first gate is connected to the second pickup terminal and wherein the second gate is connected to the first pickup terminal, a first NMOS transistor formed on the substrate and having its source and drain terminals connected together; and a second NMOS transistor formed on the substrate and having its source and drain terminals connected together, wherein a gate of the first NMOS transistor is connected to the source and drain terminals of the second NMOS transistor, wherein a gate of the second NMOS transistor is connected to the source and drain terminals of
